

As those on the inside knew, the stone property was not secured by the ball club. On account of an ill-advised and senseless publication in an evening paper last Wednesday, Mrs. Stone declared she would not lease the grounds to the base ball club. Efforts were made to have her change her mind, but without avail. Early Saturday morning—it was about 2 o'clock—Mr. Walter Rinehart, the real estate man, was awakened by Captain "Jack" Darragh, and in a short time the club had secured the "Commonwealth Army" lot, at the western end of Ohio street, Island. The lease is for one year, with the privilege of three years. Saturday afternoon the contract for building the grand stand, fences, etc., was let to the Wood Brothers Planning Mill Company, which agrees to have the park finished on May 5. It is quite probable the opening games with Washington will be played in Washington. The Wheeling club owners left Saturday night for Pittsburgh, where they will attend the meeting of the schedule committee. All doubt has vanished—it is now certain that Wheeling will be in the Inter-state league.

President Mumby, of the Michigan base ball league, is making frantic efforts to coax Saginaw to desert the Inter-state league and join the fortunes of the Michigan league, says the Toledo Press. Frank A. Rasch, owner of the Saginaw club and franchise, wrote to Manager Torreyson this morning that the high mugs of the Michigan league had offered him \$1,500 in cash to jump the Inter-state and join forces with them. Mr. Rasch replied that \$10,000 would be no temptation to him to leave a man like President Mumby, of the Toledo club and the business men associated with him in organizing the Inter-state league.

THOUSANDS OF CYCLERS

Attracted to the Country Yesterday—An Ideal Day.

Yesterday's beautiful weather brought out the cyclers in swarms, and as the outlying country roads are in very good condition this early in the riding season, the silent steed of steel was very much in evidence, especially on the national road east of the city. The favorite run to West Alexander was again the route of most of the tourists. The interest in touring bids fair to be greater than ever before this season. Commencing next Saturday morning, the *Intelligencer* will print every Saturday a descriptive sketch of a route on the roads near the city, suitable for a Sunday run. Cyclers who have explored extensively on their wheels are invited to contribute descriptions of trips and wheel tracks. Blanks can be had at the *Intelligencer* office.

As the use of the bicycle becomes more general, touring becomes more a matter of interest to the average rider, or, more specifically, to those who have taken up the bicycle as a means of pleasure and exercise, and who are not interested in racing or in road riding. This class of riders already far outnumbered that which pursues cycling for purposes of personal gain, or from the desire to excel in speed upon the track or road; and although the sporting pages of some of the daily newspapers ignore the former class, and devote columns to the doings of the latter, the sport is really most largely supported through the recently developed interest of the non-racing cyclist.

In touring the rider should be wary of coasting, which leads very often to serious accidents, especially as touring parties generally traverse roads with which they are not familiar. As a rule one should not coast on a very steep hill, or on one with a turn in it, where the bottom cannot be seen, and, in fact, coasting should only be indulged in on a straight, smooth hill, with moderate incline, and then with the brake partly on, and the wheel under full control. All cross-roads should be carefully watched, and no one should coast just behind a vehicle going in the same direction, as this may slow suddenly or turn sharply into some side street. In touring, side-path riding comes very often into use. Be careful to watch your path ahead so as to avoid runaways, thorns, and sharp stones, and also be sure, even in the outskirts of a town or village, before you take the side path or sidewalk, that there are no signs prohibiting its use. It is always wiser when you get near the centre of a town or village, whether any signs are visible or not, to ride in the street if it is at all passable.

In Harper's Weekly Mr. J. Cleveland Cady has summed up the charms of cycling touring very succinctly as follows: "Any one who wishes to get the most out of a vacation, both in healthful invigoration and pleasure, will find a wheeling tour superior to any other means. Nothing so completely takes the mind from business; the wheel demands and will have all the attention that is not absorbed by the scenery, or circumstances of the trip; business and the ordinary cares of life are quite forgotten. The lungs receive a thorough revivifying, and the circulation starts into healthful activity; sleep becomes sound, appetite voracious, and digestion perfect. Certainly this is an ideal condition for an overworked brain-worker, or a man enslaved in the routine of business."

THE L. A. W. MEET.

The Dates Requested by Louisville Have Been Granted.

LOUISVILLE, Ky., April 12.—August 10th to 15th, the dates asked for by the local organization for the national L. A. W. meet of '96, have been sanctioned by Chairman Gleason, of the national racing board, and preparations for the star cycling event of the year are under full headway. The work is under the general direction of the "Ninety-six Meet Club," whose officers are with cycling in this city. Committees have been appointed to look after all the details of the entertainment of the tens of thousands of wheelmen who are expected to attend.

The feature of the meet which will in all probability interest the visiting clubs most, is the parade of the L. A. W., which is to take place on Wednesday afternoon, and it is estimated that there will be 35,000 wheelmen in line. This parade is known as the annual parade of the L. A. W., and is the chief feature of every meet. The league's largest prizes for the club bringing the largest number of men and the finest and handsomest costumes.

In addition there will be three days of

racing for the richest prizes offered this year, runs to all the neighboring points of interest, century runs to Frankfort and other Kentucky towns, railroad excursions to Mammoth Cave, river excursions, a manufacturers' pugnat and a grand ball.

| Nameless Dropped Three. | | |
|-------------------------|----|----|
| | W. | L. |
| Brownies | 57 | 12 |
| Daisies | 47 | 15 |
| Nameless | 22 | 28 |
| Beabouts | 34 | 41 |
| Aluses | 33 | 42 |
| H. C. Richards | 27 | 29 |
| Independent | 13 | 51 |
| Press Club | 18 | 53 |

The result of Saturday's games in the Museum bowling league tournament was surprising. Beabouts and Nameless were the contesting teams. To the surprise of everybody, Beabouts rolled three 900-scores and beat out Nameless thrice. The result is to send Nameless down to third place, and Beabouts up to a notch to fourth position, displacing Musee. The score:

| Club | 1st | 2d | 3d | Total |
|----------|-----|-----|-----|-------|
| Beabouts | 919 | 972 | 974 | 2865 |
| Nameless | 882 | 904 | 857 | 2643 |

Potomac the Winner.

The checker contest between West Alexander and Potomac, closed in favor of Potomac. The third game was played at the home of H. L. McCammon, Potomac, on Tuesday evening. W. F. Moor, Albert Hanan and Giffin Atkinson represented West Alexander, and H. L. McCammon, N. E. Murray and G. E. Curtis held the lines for Potomac. Potomac won twenty-three out of forty-five games. West Alexander played slow and hard, realizing it was their last chance to win one out of the three contests to be played. But they had to give up in despair. It is hoped this will not discourage the players, for with proper training they will play a good game.

Measrs. Scott Nuzum and H. V. Curtis acted as scorers and watched the game with much interest, especially the closing game.

The Greeks Jollify.

ATHENS, April 12.—The festival in honor of the twenty-fifth anniversary of the Independence of Greece continues, though most of the important athletic events have been decided.

The chief event of the day was a bicycle race from Athens to Marathon and back, the distance being ninety kilometers, which was won by the Greek, Constantinos, in three hours, twenty-two minutes and thirty-one seconds. The Greeks are much gratified at winning the two Marathon races, to-day's bicycle race and the foot race won by Louis amid such great enthusiasm.

Slavin and Maher Matched.

PITTSBURGH, April 12.—Maher and Slavin were matched hereto-day to fight before the Eureka Club, L. L., on May 29, for a purse of \$5,000, of which \$1,000 is to go to the loser. Buck Cornelius represented Maher and Tom O'Rourke, Slavin. The match is to be for twenty rounds.

That \$1,000 Bicycle.

That is a very generous offer the Rambler bicycle people make in the advertisement printed elsewhere, through their Wheeling representative, Jason C. Stamp. What's the matter with Wheeling? Why a meet and taking down that wheel and the extra \$500 for the club promoting the meet? Nothing at all.

MOUNDVILLE.

A Miscellaneous Melange of Minor Matters from Marshall's Metropolis.

The cigar and stogie establishment of H. Beamon & Son is receiving large orders from San Francisco, several of the southern states and Pittsburgh. Their daily output amounts to about 50,000 and the management is unable to supply the demand. At the present time the labor force figures about forty males and fifty females. The weekly pay-roll foots nearly \$1,000.

Captain John Mallory, formerly of Clington, is enthusiastic in the cause of Cuba's strike for liberty. The captain is making strong efforts to raise a company of volunteers, and so far has met with partial success.

The new Moundsville orchestra, recently organized, intends to make it a permanent organization. Samuel Fisher, formerly of Barnesville, O., is one of the leading lights and a musician of experience.

The early completion of the Moundsville electric railroad is eagerly looked for by the people, and no doubt will be a paying enterprise to its management.

Rumor has it that Robert McConkey, formerly of Grafton, will join the army of Benedicts in the near future.

BELLAIRE.

All Sorts of Local News and Gossip from the Glass City.

The family of John Allum, who live in the Gordon property at Pulney Bottom, had a narrow escape from lightning Saturday morning. The rain shower was accompanied by sharp lightning and the five members of the family were gathered together in one room. Lightning struck the chimney at the end of the house knocking it to pieces and moving the house on its foundation. None of the family felt the shock from the lightning, but their nervous shock when they found out what a close call they had was severe enough, as only the women folks were at home.

The house of Stanton Phillips, with all its contents, including the clothing of the family, was destroyed by fire Saturday night. Mr. Phillips and his family were at his brother's home, and there was no fire left in their own house so far as they know, yet the house and contents were in ashes a few hours later. The house was situated outside the city limits. There was \$600 insurance. Mr. Phillips is a packer at Roder Bros. glass factory.

The new officers-elect in this city will all take hold this week. The council which time the new members will take their seats, the boards of the newly elected mayor and other city officers will be examined and if approved the new administration will be given full charge. There is much speculation as to the new police force. It is said it will be entirely new.

There was an alarm of fire Saturday night and the department was called out by reason of a fire in the chimney of the residence of Mrs. Anna Dickson, in the First ward, but the hose company in that ward had the fire out before any of the others arrived.

There will be a meeting of the executive committee of the Belmont County Sunday School Association at the First Presbyterian church in this city, this afternoon.

Communion service was held at the First Presbyterian church yesterday morning and a large congregation was present to observe it.

Miss Carmichael, the music teacher in the public school, returned to the city Saturday after spending her vacation at Wellsburg.

The township trustees held a meeting to-morrow to settle up old matters, and Alex Lysle, of West Wheeling, will take his seat.

John Saltgaver and family will return to their home at Findlay to-day, after spending a week in this city.

The school board will consolidate the office of clerk and trustee officer and have one man fill both places.

Miss Maud Hamilton has returned to Steubenville after visiting relatives in the Fourth ward.

Miss Margaret McGaw returned yesterday from Moundsville, where she spent two weeks.

Buggies, bicycles and promenaders were out in full force yesterday and the

streets were fairly filled with people sunning themselves most of the afternoon.

Dr. H. C. Kemple is now drilling the drum corps for the decoration day parade.

George Springer is visiting friends at Cambridge.

Ruben Ochsenbein, of West Bridgeport, is sick.

Yesterday was communion day at the Presbyterian church.

Foul breath is a discourager of affection. There are more reasons than one for this. Foul breath is always an indication of poor health—bad digestion. To bad digestion is traceable almost all human ills. It is the starting point of many very serious mal-

dies. Upon the healthy action of the digestive organs, the blood depends for its richness and purity. If digestion stops, poisonous matter accumulates and is forced into the blood—there is no place else for it to go. Before this, the fermented, putrid matter has indicated its presence by making the breath foul, the complexion sallow and muddy, the eyes dull and the head heavy. By and by, the germ infected poisonous matter in the blood causes weakness or inflammation in some part of the body. Then comes rheumatism, sciatica, consumption, liver complaint, kidney trouble and a half a hundred other ills.

The bad breath is a danger signal. Look out for it! If you have it, or any other symptom of indigestion, take a bottle or two of Dr. Pierce's Golden Medical Discovery. It will straighten out the trouble, make your blood pure and healthy and full of nutriment for the tissues. (It is a strong statement, but a true one that the "Golden Medical Discovery" will cure 98 per cent. of all cases of consumption if it is taken in the early stages. It will relieve even the most obstinate cases of long standing.)
